

Waterproof Call Point

The Axis Resettable Call Point is a loop powered device designed around a fully digital protocol.

A unique manual call point that mimics the feel of breaking glass whilst offering the user the benefits and environmental advantages of a re-settable operating element.

Upon activation an indicator drops into view at the top of the window. The unit is then simply reset by use of a special key.

The same special key is used for removal of the device's front cover.

The unit provides a fast and secure response, and incorporates a bidirectional short circuit isolator.

Connections are made using plug-in terminal blocks which will accept conductors up to 2.5mm².

Key Features

- Short circuit isolators in each device to the requirements of EN54-17
- Large capacity, up to 240 devices per loop
- Auto addressing capability (by the control panel) or manually using a hand held programmer.
- Digital checking of double address
- Line quality information
- Bicolour (red green) LED driven by the control panel

Specification

| | |
|-----------------------------|-----------------|
| Power Supply | 15-40 V |
| Average Current Consumption | I=70 uA |
| LED Current Consumption | Iled=6mA @24Vdc |
| Operating Temperature Range | -20°C / +70°C |
| Dimensions H x W x D mm | 119 x 128 x 62 |
| IP Rating | 67 |
