

# ET011

## Fibreglass Extension Tube 1.2 m (Maximum 3 per ET010)

### General

---

The ET010 is a telescopic pole that is extremely lightweight and quick and easy to extend to any height. It is used as an extension to the detector test equipment offered by Edwards. This durable telescopic pole reach heights of up to 4.5m and may be extended using extension poles (ET011) to reach up to 9m.

### Safety

---

These poles are subjected to rigorous conductivity testing to ensure the integrity of the insulating materials. Equipment in contact with live electrical components makes it vital for the insulating materials to be of the highest standard. The ET010 will stand up to the rigours of everyday use - testing and isolate the user from danger.

### Details

---

- Light weight
- Extends the telescopic pole a further 3.6 m (3 sections)
