

STI Euro Stopper® Multi-Kit Range

The new Euro Stopper Multi-Kits have been designed to make life simpler for both users and installers of the Stopper range of products. The Multi-kits replace the most commonly used variants of the Stopper range, see overleaf for details, as well as offering a number of other advantages.

These include:

- € The Euro Stopper Multi-kits typically replace 8 different, separate part numbers
- € The kits include labels in 13 different languages
- € Red and green cover hoods are supplied as standard
- € Fewer part numbers required in inventory
- € Break seal and 30mm spacer supplied as standard

The Euro Stopper Multi-Kits are supplied with the following standard items:

Multi-Kit without sounder	Part No: 308-184	Multi-Kit with sounder	Part No: 308-185
One Euro Stopper Frame, embedded with Glow Guide®: surface or flush mount options		One Euro Stopper Frame, embedded with Glow Guide: surface or flush mount options	
2 coloured hood covers (red and green)		2 coloured hood covers (red and green)	
1 break seal		1 break seal	
1 spacer (30mm)		1 spacer (30mm)	
2 label sheets in 13 languages		2 label sheets in 13 languages	
-		1 Integral Sounder	

Operating labels are supplied, as standard, in the following languages: English, Czech, Danish, Dutch, Finnish, German, Italian, Norwegian, Polish, Portuguese, Slovakian, Spanish and Swedish.

Glow Guide is a unique photo-luminescent material, embedded into the frame of the products, which helps locate the devices in dark or dimly lit areas.
