(see ZP1 brochure)

Up to 8 supervised outputs

2 supervised inputs

Resettable aux 24Vdc

Fire routing & fire protection controls

Aspiration systems

The installer's best friend

Quick removable door

Quick removable chassis

Pluggable connectors

Scandinavian key lock

- Fire panels
- Repeaters
- Evacuation
- SS3654 models

7 zone manual evacuation

ZP2 series is supported by a full line of associated equipment, all working in harmony providing years of trouble-free operation with proven technology and easy maintenance features.

Stylishly simple

- Simple and intuitive front panel control
- Fast system setup and configuration
- Incremental auto programming
- Undo last changes
- Off-line programming and upload via USB memory stick
- Easy-to-configure option cards and modules

- Remote maintenance and diagnostics via TCP/IP
- E-mail notifications
- Graphical EN54 compliant LCD screen with icons
- Change language on the fly
- Surface/recess/19" rack mounting
- Future proof

Unsurpassed performance for standalone up to small/medium size networked applications
