

ZP7-SBB-P

ZP7 Series Surface Mount Visual Indicator Base (POLAR WHITE)

General

The ZP7-SBB-P is a POLAR WHITE, surface mount ZP7 series visual indicator base compatible with the Z700 series detectors. It supports the ZP755V-P addressable visual indicator when used with an external power supply. Automatic locking is provided for use with a device enabled for head locking.

Installation

ZP7-SBB bases provide slots for screw fixing to either surface wiring plates or conduit boxes with screw fixing centres between 50 mm and 90 mm.

Terminals

ZP7-SBB bases feature robust wiring terminals with captive clamping washers to ensure secure wiring termination. The bases are of shallow design with ample space to accommodate cables of all types. Terminals are provided inside the moulding for loop connections and the termination of cable screening.

Standard Features

- Supports external power connection for the ZP755V-P
- Common to all Z700 series detectors
- Automatic locking option
- Address identification label
- Ease of installation

ZP7-SBB-P

ZP7 Series Surface Mount Visual Indicator Base (POLAR WHITE)

Specifications

Model No	ZP7-SBB-P
Description	Stand alone visual indicator base
Specification	Designed to comply with BS5839
Compatibility	All ZP7 series addressable detectors and ZP755V visual indicators
Mounting	Conduit box or surface wiring plate (mounting centres 50 – 90 mm)
Wiring	2 wire zonal
Monitoring	Open and short circuit fault, device removal and device type
Terminals	Loop +ve in/out
	Loop -ve in/out
	Cable screen continuity
	+ VCC +ve
	- VCC
Operating voltage	16-22 VDC
Application	Indoor installation
Temperature range	-20°C to +55°C
Humidity range (non condensing)	0% to 95% RH
Material	Moulded ABS
Dimensions	108mm (Dia) x 17mm (H)
Colour	Polar White
Weight	40g
