

SC010

Aerosol Test Spray for Smoke Detectors, HFC free, Non-flammable

General

The SC010 is a HFC free, non-flammable and clean synthetic aerosol delivering particles which replicate those found in real smoke. This aerosol test spray has been especially developed to provide maximum testing efficiency with the least impact on the smoke detector and the environment. The SC010 test spray provided in a 250ml canister has optimum performance when used with the TR010 touch-sensitive dispenser.

Details

- Minimum impact to health, safety and environment - HFC free
- Non-flammable
- Fast testing and clearing times
- No lasting residue
- Oil-free formulation
- No damage to detector plastics and components
- Designed for TR010 touch sensitive dispenser
- UL Listed
